# EMERGENT FUTURE

*REIMAGINING OUR  
WORLD TOGETHER*

You are warmly invited to a gathering of connection, reimagination and allowing for the unknown to emerge.

We come together to face the **reality** of the world, speak our truth and grieve what is. Let us live into and learn from the stories of **hope** that are propelling us forward. The journey towards change often requires leaps of **faith**— what are the bold steps we need to take to build our future?

Join us as we explore our external and internal worlds through music, solitude, community, reflection, plenaries, shared experiences, storytelling and over food & chai.
